Bio for Mark Aaron, speaker at the March 28 Environmental Group Meeting

As an Environmental Scientist in EPA Region 7's Storage Tanks & Oil Pollution Branch, Mark Aaron works both inspections and compliance for both UST and SPCC programs and is the Team Lead for the SPCC Program. Mark received a BA in Chemistry from Arizona State University, a MS in Industrial Hygiene and Occupational Safety & Health, and is a Certified Hazardous Materials Manager (CHMM).

Mark's experiences range from research and development to tribal environmental program development and implementation to state and federal environmental regulation. To name just a few: Mark has worked for the Cambridge, Massachusetts algae-to-biofuels corporation, GreenFuel Technologies Company as a lead scientist; the Arizona Department of Environmental Quality as a RCRA compliance officer; the Salt River Pima-Maricopa Indian Community (SRPMIC) in Scottsdale, Arizona where he served as the grant program manager for GAP, RCRA and FIFRA programs, conducted environmental assessments for the Community, managed an EPA grant funded Brownfields project, and served on the Tribal Pesticide Program Council, National Tribal Toxics Steering Committee, and the EPA Certification and Training Advisory Group.

Mark grew up in Indiana, has experienced traveling and living in many different locales and cultures, and is a certified yoga instructor. When not working, Mark is an avid homebrewer and gardener in Lawrence, Kansas.

February Geotechnical Group Meeting Summary

The Nebraska Section's Geotechnical Group hosted the February meeting and presentation on February 7, 2013. Richard Taylor and Don Moses delivered a presentation on the Missouri River Levee performance, analysis, and repair for the 2011 flood event.

The list below can be considered official documentation of attendance at the February 7, 2013 meeting worth one (1) PDH credit.

ASCE Region 7 Continuing Education Seminars and Workshops

Geographic Services is proud to announce the Continuing Education Schedule of seminars and workshops for Spring/Summer 2013 in your geographic area. These seminars/workshops have been produced by ASCE's Continuing Education Department with your members in mind. This new schedule has been placed under the Links tab on each Region website. (<http://www.asce.org/Regions-Sections-Branches/Region-7/Links/Links/>)

Seminar/Workshop	Date	City / State
HEC-RAS Computer Workshop	May 15-17, 2013	Denver, CO
Earthquake-Induced Ground Motions	May 16-17, 2013	Rapid City, SD
Wind Loads for Buildings and Other Structures	June 13-14, 2013	St. Louis, MO
Designing Non-Building Structures Using ASCE 7-10	July 25-26, 2013	St. Louis, MO
Design of Lateral Force Resisting Systems Using the 2012 International Building Code	August 22-23, 2013	Rapid City, SD
Dam Breach Analysis Using HEC-RAS	September 11-13, 2013	Denver, CO
Low Impact Development Applications for Water Resource Management	September 12-13, 2013	Rapid City, SD
Soil and Rock Slope Stability	September 26-27, 2013	Denver, CO
